

Health Sciences Libraries in Ottawa-Hull

Within the Ottawa-Hull area there are approximately fifteen libraries serving users involved with the Health Sciences. It might perhaps be useful for members of the staffs of all these libraries to get together occasionally to discuss problems they may have in common, and ways in which they might cooperate to improve service to their users. This is done, I know, in Toronto, Montreal, and Winnipeg and probably in other Canadian urban areas.

The library of the Ottawa Civic is available for an initial meeting. The first attempt would be of an exploratory nature - to get opinions on whether a Health Sciences Library group should be formed in this region, and if so, establish subject matter and formats for future meetings. Mrs. Ann Nevill of the Health Sciences Resource Centre at the Canada Institute for Scientific and Technical Information has indicated that she will be happy to attend a meeting and help in any way she can.

If you would be interested in attending such a meeting - to be held Wed., Nov 6 at 8:00 PM in the Medical Library of the Ottawa Civic Hospital, 1053 Carling Ave., please reply to:

Miss Mabel Brown
Medical Library
